

mathdis

mathdis is a program to disassemble the microcode ROMs of the "math box" used by some Atari coin-operated video games, such as Red Baron, Battlezone, and Tempest.

Download [mathdis.c](#) (9.4K, Sunday, 12-Jan-1997 10:22:10 MST)

Zonn Moore also wrote a math box disassembler, [mbdiss.c](#) (10K, Friday, 17-Jan-1997 09:37:58 MST)

Atari's [Star Wars](#) and [The Empire Strikes Back](#) games use a more sophisticated 2901-based math box, for which Frank Palazzolo wrote the dissassembler [matread.zip](#) (36K, Monday, 28-Jul-1997 18:11:14 MDT)
